## **DETAILED ACTION**

### ***Allowable Subject Matter***

**Claims 1-15 are allowed in view of the prior art.**

The following is an examiner's statement of reasons for allowance:

As to claims 1, 8, 10, 11, 12, 13, and 14, the prior art of record, taken either alone or in combination, fails to disclose or render obvious a method and detection system to detect the presence of windshear in front of an aircraft, in combination with the rest of the limitations of the above claims.

Regarding claims 1 and 11, the applicant's arguments dated September 2, 2004 lay out detailed reasons for the allowability of these particular claims over the prior art. In particular, the prior art is only sensing the wind speed at a distance extremely close to the aircraft and at a remote distance away from the aircraft. The instant application, however, makes a series of measurements from the area near the aircraft out to a predetermined distance away from the aircraft; this series of measurements allows for a far more accurate windshear detection than the pair of reflections in the prior art can provide.

Regarding claims 8, 10, and 12-14, please see the reasons for allowability as disclosed in the Office Action mailed May 3, 2004.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
